TITLE OF THE PROJECT:

ISM ("I Sell Mystuff ").

DOMAIN OF THE PROJECT:

Booking portal(Ticket).

OBJECTIVE OF THE PROJECT:

The main objective of this project is to sell the tickets in the website which is user and owner friendly environment. The main theme is not to waste the tickets and money.

DESCRIPTION OF THE PROJECT:

ISM ("I Sell Mystuff"), it is the ideology about the movie tickets selling in the website which are already purchased from the Bookmyshow, the main intension of this project is not to waste money as well as tickets. And those tickets will be available in the website which is developed free of cost and always available for users (User Friendly). The tickets which are booked in the Bookmyshow by any person, and if he is not able to attend the show due to any problem and if he wants to cancel the show tickets, then our website will always available at that situations at free of cost. Here the owner who wanted to sell tickets, he can sell on our platform to customers who are looking for tickets.

The main thing is that we are not going to sell tickets in increasing their original price. we keep tickets available in discountable prices. Here on our platform the tickets are available in 5% less price than original price.

PHASE 1: Get to know your client.

PHASE 2: plan & Organize the Website.

PHASE 3: Build the Website.
